SUMMARY

Motivated Information Technology graduate with strong problem-solving, analytical, and communication skills. Experienced through internships and academic projects in data handling, software tools, reporting, and teamwork. Quick learner with the ability to adapt to new technologies and contribute effectively in dynamic work environments.

EDUCATION

Bachelor of Technology in Information Technology | 2022 -2026

K.S.Rangasamy College of Technology, Tiruchengode

CGPA: 8

Higher Secondary Education (Class XII) – 85%

Secondary Education (Class X) – 90%

SKILLS

Languages: Python, SQL

Databases: MySQL

Tools: Excel, Power BI, Tableau, Power Query, MS Office

Technical Skills: Data Analysis, Reporting, Database Management, Dashboard Development, Data Visualization

Soft Skills: Communication, Problem-Solving, Analytical Thinking, Team Collaboration, Adaptability, Quick Learning

INTERNSHIP EXPERIENCE

Rynixsoft, Chennai – Hybrid

Data Analyst Intern | Mar 2026 – Apr 2026

Developed an Intern Performance Analytics Dashboard using Power BI, Python, and Flask to track performance metrics and generate actionable insights.

Sedin Technologies, Chennai - Onsite

Data Analyst Intern | Jun 2025 – Sept 2025

Analyzed and validated datasets for accuracy, developed Power BI dashboards for performance tracking, wrote SQL queries for data extraction and processing, generated reports for business decision-making, and collaborated with teams to ensure data consistency and quality.

PROJECTS

Intern Performance Analytics & Insights Dashboard (Power BI + Python + Flask)

- Conducted end-to-end data analysis including cleaning, EDA, and feature engineering to derive actionable insights on intern performance.
- Designed a multi-page Power BI dashboard with modules for overview, department analysis, top performers, and at-risk identification.
- Integrated a Flask-based web form to enable real-time data entry, enhancing the dashboard's practical application.

Weather Forecasting Analytics (Power BI + Weather API)

- Integrated live weather data using Weather API and performed data transformation to prepare it for analysis.
- Developed an interactive Power BI dashboard to track weather trends, forecasts, and key environmental metrics.
- Implemented real-time data refresh, enhancing the dashboard's ability to reflect current weather conditions.

CERTIFICATIONS

- Coursera – Google Data Analytics Professional
- Oracle Analytics Cloud 2025 Professional
